

# Evaluation Results

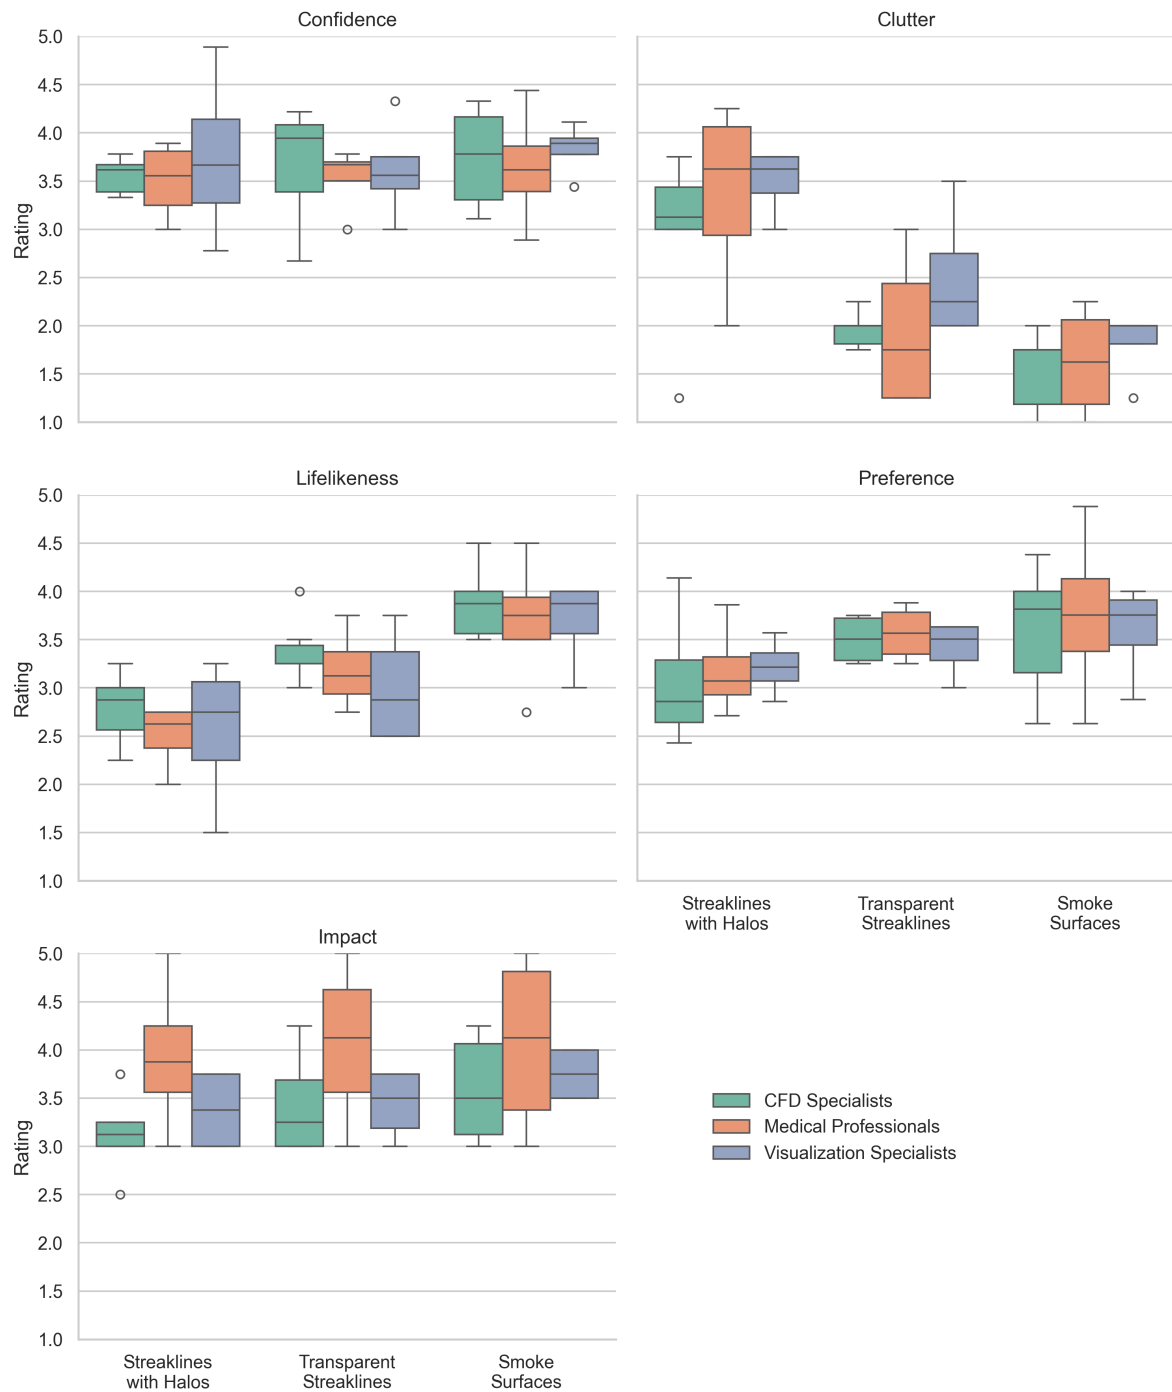

Figure 1: Boxplots of the first five visualization aspects based on participants' subjective ratings. Ratings are shown for each aspect, technique, and participant group. Each plot displays one aspect, with ratings grouped by visualization technique (shown left to right) and participant background: CFD specialists (green), medical professionals (red), and visualization specialists (blue).

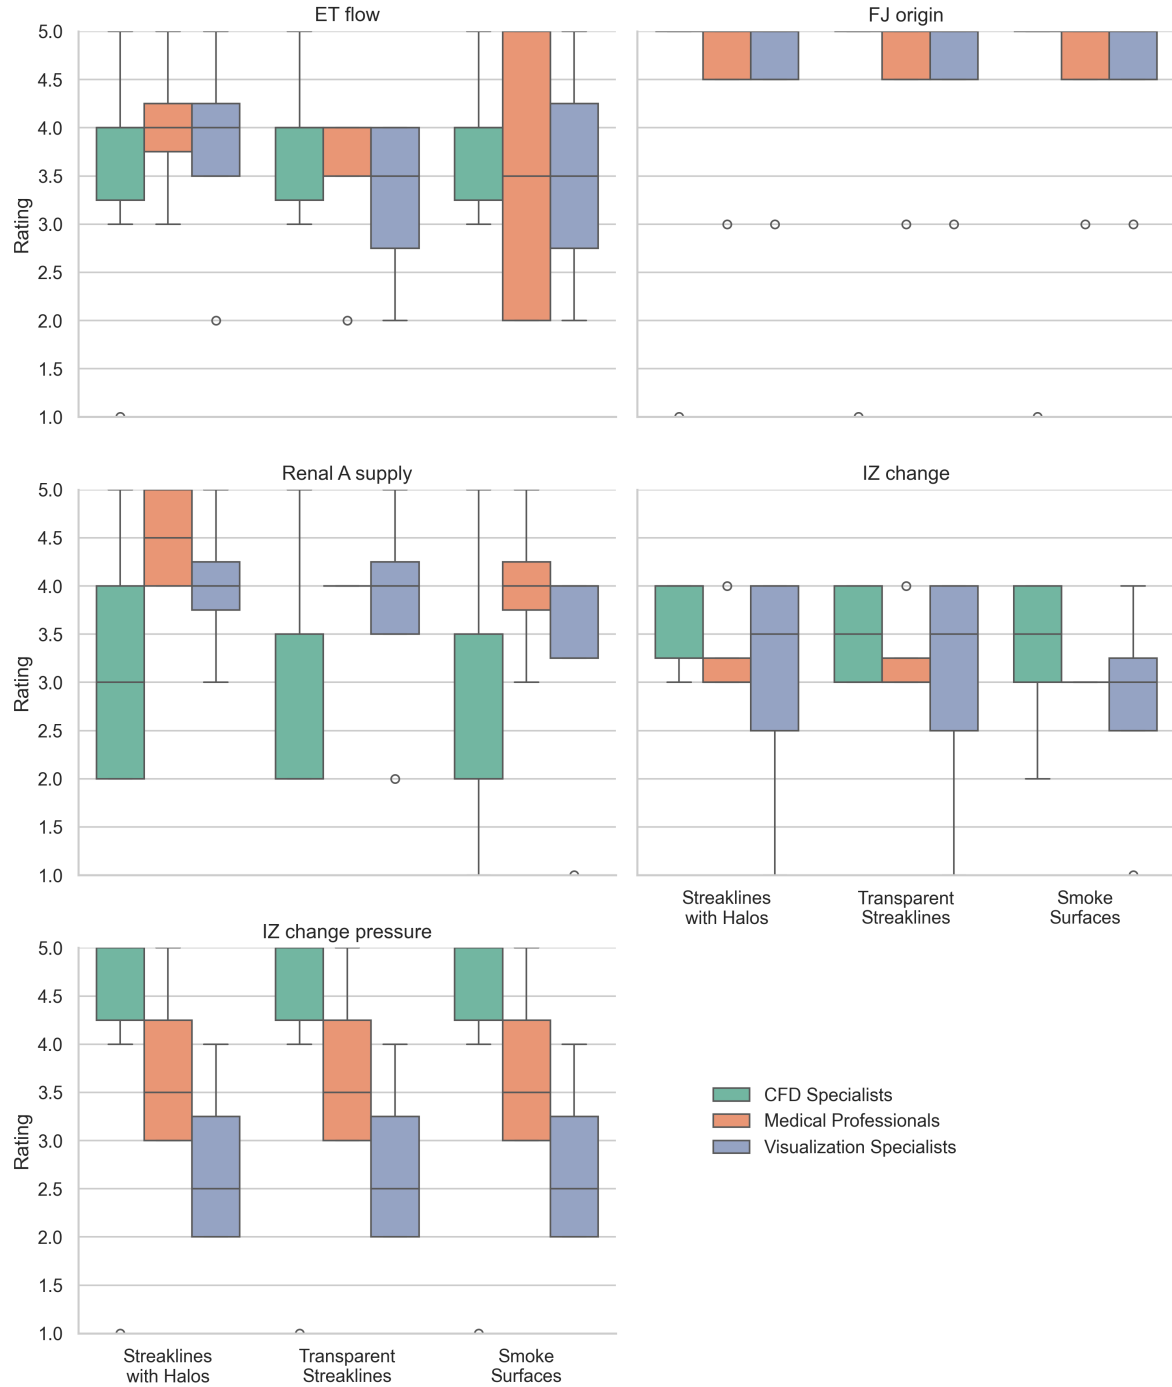

Figure 2: Boxplots of the first five visualization aspects based on participants' accuracy in assessing the flow. Ratings are shown for each aspect, technique, and participant group. Each plot displays one aspect, with ratings grouped by visualization technique (shown left to right) and participant background: CFD specialists (green), medical professionals (red), and visualization specialists (blue).
